### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or render obvious the overall claimed invention of a tool for inserting an mating two bioabsorbable plug members of a sealing device for closing a wound in the wall of a blood vessel, one bioabsorbable plug member of the sealing device being a bioabsorbable distal plug member to be positioned inside the blood vessel and the other bioabsorbable plug member being a bioabsorbable distal plug member being provided with an elongated retracting means extending from the bioabsorbable distal plug member, wherein the tool comprises a gear mechanism coupled to the retracting means for converting a movement of the tool in a proximal direction away from the wound to a pushing movement for moving the bioabsorbable proximal plug member in a direction towards the bioabsorbable distal plug member, the pushing movement being induced by a stretching force in the retracting means.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Claims 1, 4, 12, and 15 are directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 6 and 17, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, are now

subject to being rejoined. Claims 6 and 17 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on 8 May 2003 is hereby withdrawn.
